Part No. 40-40AE5200
Ethernet Video Display Adapter

Calrad's 40-40AE5200, DoIP (Display over IP) Adapter enables you to easily connect one more video monitors, LCD's or projectors to a computer over your existing computer network, without the burden of opening your PC case and having to add a new graphics card and reconfiguring your system. With existing Cat5e, Cat6 cabling you can place the remote display stations up to 100m away from the source. Easily locate the 40-40AE5200 display adapter anywhere you have a connected network jack and enjoy high quality PC video resolutions and DVD quality video playback. The Calrad 40-40AE5200 solution provides a single DVI video port and design for small office, classrooms, exhibits, trade shows, monitor testing, demonstrations and multi-media presentations, etc.. Includes owners manual and software installation disc.
